

Motor Industry Research Association Results

MIRA Test Summary

The Motor Industry Research Association or MIRA is the leading authority for emissions testing in Europe. MIRA tested Green Plus in March of 2002. The test was performed on a Skoda Octavia 1.9 tdi diesel. The results (as shown in the graphs above and on the next page) show an improvement of 75% in Carbon Monoxide, an 82% improvement in NOX and a 31% improvement in Particulates when Green Plus was present.
